Graphics: GeForce 8800 GT or Radeon HD 4770 / 512 MB

DirectX: Version 9.0c

Storage: 13 GB available space

Sound Card: DirectX 9.0c Compatible

English,French,German

Chapter 5 - SKIP IT, if you can. We don't get to see the dragon again!!! >:(

Pros:

Open-ended ending
Nostalgic at times
Funny achievements

Cons:

Short

Confusing - was this suppose to be Alzheimer awareness?

Very Linear - no choices

No dragon!. for me the third and forth chapter were bad ,boring and linear this chapter correct the mistakes of the previous two by being realy interesting, good narrated, had great story telling and emotional value .

great conclusion and realy good adventure game. A great conclusion to a great game.

Like the best chapters, Chapter 5 made me laugh, made me think and made me feel for the characters.

I've been invested in the chapters, but I dont think I was as emotional as the game wanted me to be. I will say overall its not perfect, but I've really really enjoyed this series. Haven't come across a game yet that has been so compelling in so many ways: art style, voice acting, puzzles, story and characters.

Really hope Odd Gentleman continue with the series.. This was an acceptable ending for this well made game. I actually thought this was one of the stronger chapters emotionally. It has some fun nods to the previous games, and it seemed to be a more balanced chapter in terms of puzzles versus adventuring. If what I played at the end was the playable epilogue, those that were concerned about not getting to play it because they bought the game in parts, you're not really missing much. It really didn't need to be playable at all and really doesn't add much to what we already knew from the rest of the game. EDIT: So the epilogue was released a little later than my initial review. The epilogue does have more content to it.
